

# Little Acorns

## Home Learning Challenges

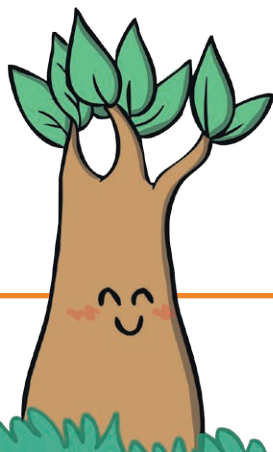

With a grown-up, go for a walk in a park. Take some photos or draw pictures of some of the things you see. Can you find any different leaves? Or acorns? Did you see any animals, minibeasts or birds?

The story begins in autumn. Draw or paint an autumn picture. What colour leaves can you see in autumn?

Throughout the story, the little acorn grows into a tall oak tree. Ask a grown-up to help you find out what plants need to grow. Maybe you could use the Internet or some books to help you.

There were 4 acorns hanging on a tree. If 2 fall to the ground, how many acorns would be left on the tree? Draw a picture or use your fingers to help you work out the answer.
